What Doctors Are Saying
 About The Ojibwa

"We are pleased with results thus far - what I have seen suggests the possibility that Ojibwa Tea loosens tissue memory and thus may facilitate Somato Emotional Release. From my own personal experience and with my patients, I am seeing fantastic results."

John E. Upledger, D.O., O.M.M.
 West Palm Beach Gardens, FL

"I've found that Ojibwa helps with problems that have not or cannot be addressed by any other methods. It has proven very effective in conditions of weakened immunity, or autoimmune conditions such as Chronic Fatigue Syndrome. It's also very helpful in helping patients with toxic conditions."

Howard Peiper, N.D.
 Albuquerque, N.M.

"I believe taking Ojibwa would be good for all people prophylactically and I suggest its use to any patient who needs that kind of immunological pickup."

I.G. Olarsch, N.D.
 North Port, FL

"In my practice, patients who started taking Ojibwa when they were already ill with a viral or bacterial infection had greatly accelerated healing and recovery times. It has proven very helpful in helping patients with toxic conditions."

Thomas McLaughton, M.D.
 Sarasota, FL

"I use the Ojibwa in my practice to manage a variety of conditions, including lowered immune function, chronic or recurring infections, autoimmune diseases, colds, flu, allergies and prostatitis."

Joanne Wilson, N.P.
 Santa Fe, N.M.

Ojibwa Extract™
 & Ojibwa Tea™

From nature's pharmacy,
 this is truly a gift from the
 Ojibwa Tribe to the world.
